## Optica One by Breathing Colour

### Description:

Optica One™ is Breathing Color's latest innovation tailor-made for the demanding and discerning photographer who values superiority in print quality performance. With a proprietary inkjet receptive coating that delivers off-the-chart dmax and color gamut numerical readings, Optica One™ represents the new age of fine art papers from Breathing Color™ and is unmistakably in a league of its own. Optica One™ is a 300gsm bright white, matte fine art paper with a luxuriously smooth surface ideal for high resolution photographic imagery. It is able to produce extremely crisp and accurate detail as a result of its leadership (when measured against other fine art papers on the market today) in tonal range value, line quality, line contrast, and raggedness.

### Specifications:
